

Bachelor of Science (Honours) in Data Science and Artificial Intelligence

Query Tool

Query Tool for raising your concerns

Accessing the Query Tool

1. Login to the Portal:

Use your IITG login credentials to access the online portal.

2. Navigate to the Query Tool:

- Locate the **Query Tool** in the left-hand menu of the dashboard.
- Click on the **Query Tool** option to open the feature.

Understanding the Interface

The Query Tool interface is organized into two tabs for ease of use:

1. Query Tab:

- Displays the query categories and subcategories.
- Enables students to raise new queries under specific subcategories.

2. Communication & Response Tab:

- Lists all active and resolved queries, along with responses from the admin.
- Allows students to view and download attached files and continue the discussion on a particular query.

Query Tool for raising your concerns

Raising a New Query

1. Select a Category:

- Click on a query category to view its subcategories.

2. Choose a Subcategory:

- Select a subcategory relevant to your concern.
- Click on it to open a query submission form.

3. Fill in the Query Form:

- Enter your query details in the text field.
- Optionally, attach a file if needed.

4. Submit the Query:

- Click the **Submit** button.
- Your query will now appear in the **Communication & Response** tab for tracking.

Tracking and Responding to Queries

1. View Responses:

- Navigate to the **Communication & Response** tab to see all your submitted queries.
- Select a category to view active queries and admin responses.

2. Continue the Discussion:

- If you wish to raise another query related to the same discussion, click the **More Query on the Same Discussion** button.
- Type your follow-up query and submit it.

3. Download Attachments:

- If the admin has attached a file in their response, you can download it directly from the tab.

Query Tool for raising your concerns

Important Guidelines

- **Exclusive Platform:** All student queries will be managed exclusively through the Query Tool. Email communication for queries will only be considered in exceptional circumstances.
- **Effective Communication:** Ensure that your queries are clear and concise. Attach relevant documents if needed to help the admin address your concern effectively.
- **Timely Follow-ups:** Use the **More Query on the Same Discussion** feature to continue conversations within the same category instead of raising separate queries for related issues.

Benefits of the Query Tool

- Centralized management of queries.
- Easy tracking of responses.
- Organized communication for better query resolution.
